

## 888 Crop Circle

This magnificent figure 8 crop circle appeared at sunrise 888 on Milk Hill nr. Honey Street, which is very close to Avebury stone circle. In June, 2004 the "bee" crop circle formation appeared at this same location!

This was the sign and message we were waiting for. It heralded the time of the great shift happening and the confirmation that the scales have now been tipped in the positive direction of light, life & love and that milk and honey will flow once again.

The figure 8 is the movement that the honeybees make, called the "waggle dance" to communicate to hive mates where the source of nectar, water and where the best place for a hive will be. On this auspicious sunrise 888 the honeybees were communicating that there is hope and that the bees, as well as humanity will survive, as long as we are sensitive to the signs and messages given to us.

Through the crop circles, which are messages from earth herself, from nature, from super-nature, and interdimensional, as well as extra -terrestrial beings. The crop circles are a gift to us as codes, messages and activations.

Just a few months after 888, on November 4, 2008, we witnessed the miraculous election of Barack Obama as the 44th president of the United States of America. He embodies the Aquarian ideal. And is a symbol of the healing nations and of the separation of black and white, Christian and Muslim.

This is a time for gratitude and celebration. The old structures are and must crumble. We have to ride the wave of change, go with the flow, stay in faith, hope and trust, and know that the new paradigm of unity, integrity and love is being born now.
